

Tharvesh Muhaideen

Software Engineering | ECE Graduate (2026) | Python & Full-Stack Developer | MERN & Flask

New Street, Nagapattinam, TN | +91 99940 21042 | tharvesh2026@gmail.com | linkedin.com/in/tharvesh2005

EDUCATION:

B.E. – E.C.E

E.G.S. Pillay Engineering
College, Nagapattinam

Duration: 2022–26

HSC

National Higher Secondary
School, Nagapattinam

Duration: 2021–22

SKILLS:

Programming Languages:

Python, JavaScript, Java
(Basics)

Web Technologies: HTML, CSS,
Bootstrap, Tailwind CSS

Frontend Frameworks:

React.js (Basics)

Backend & Databases: Flask,
Node.js (Basics), MongoDB

Tools & Platforms: Git, GitHub,
VS Code, Figma

AWARDS:

2nd Prize – SDG Goals 11 & 13
Project Presentation
(September 2025)

Best Academic Award
(April 2025)

Entrepreneur Award
(April 2025)

Certification:

Problem Solving (Basics) –
HackerRank

Python (Basics) – HackerRank

Java (Basics) – HackerRank

PROFILE:

Seeking an entry-level software engineering position as an ECE graduate (2026) with a strong foundation in Python and full-stack web development. Experienced in building institutional applications and AI-based solutions using the MERN stack and Flask. Seeking an opportunity to apply problem-solving skills, write clean and scalable code, and grow as a software engineer by contributing to real-world systems.

EXPERIENCE:

Web Application developer Intern

EGS Pillay Group of Institutions, Nagapattinam, TN

Oct 2025 – Present

- Built institutional applications using MERN stack, including server configuration and database migration.
- Gained hands-on experience in frontend and backend development, system logic, and project delivery.

Founder & Developer

TM Nexus, Nagapattinam, Tamil Nadu

September 2024 – Present

- Initiated a *self-learning tech community* focused on web development, dashboards, and AI-based solutions.
- Developed full-stack applications, AI chatbots, and institutional projects independently.
- Applied practical skills in Python, Flask, React.js, and MERN stack to real-world problems.

Project Intern

Oil and Natural Gas Corporation Limited (ONGC), Karaikal

Feb 2025 – Mar 2025

- Developed a document-trained AI chatbot for the INFOCOM department using Python and the Gemini API.
- Automated query handling and improved internal information access.

Courses:

MASTER CLASS ON PYTHON (10 DAYS) – Pantech Solution

MASTER CLASS ON ARTIFICIAL INTELLIGENCE (30 Days) – Pantech Solution

MASTER CLASS ON MACHINE LEARNING (30 DAYS) – Pantech Solution

DATA ANALYTICS MASTER CLASS (30 DAYS) – Pantech Solution

Web Development (6 months) – YHills

Achivements:

2nd Prize – SDG Goals 11 & 13
Project Presentation
September 2025)
Best Academic Award
(April 2025)
Entrepreneur Award
(April 2025)

Certification:

Problem Solving (Basics) –
HackerRank
Python (Basics) – HackerRank
Java (Basics) – HackerRank

LANGUAGES:

English (Intermediate)
Tamil (Native)

Projects:

Smart Soil Sense (AIoT)

Final Year Project

- Designed an AIoT-based smart agriculture system integrating soil sensors with a web application.
- Analyzed soil parameters and provided AI-driven insights to improve agricultural decision-making

Student Project Management System

Institutional Application

- Developed a role-based MERN stack application for managing student projects at the institutional level.
- Admin can create faculty and batch accounts; faculty can manage up to N no of batches.
- Students can select a project statement once, which is automatically mapped to the assigned faculty.

Faculty Credit System

Institutional Application

- Built an interactive UI to track faculty credits and performance evaluation.
 - Focused on usability, responsiveness, and structured data flow
-

Declaration:

I hereby declare that all the above information is true to the best of my knowledge and belief.

PROFILE:

As an ECE graduate (2026) with hands-on exposure to quality testing, embedded systems, and academic industrial projects. Completed an internship in a manufacturing environment involving motor testing and component inspection. Seeking a quality engineer trainee role to apply technical fundamentals, learn shop-floor processes, and contribute to manufacturing quality, safety, and efficiency.

EXPERIENCE:

Quality Tester Intern

Hyosung India Pvt Ltd – Chennai
Feb 2025 – Feb 2025

- Tested motor specifications and identified NG (Non-Good) parts using standard measuring tools
- Assisted in inspection of mechanical and electrical parameters. Observed quality control procedures, documentation, and defect handling
- Gained exposure to industrial testing standards and manufacturing workflow

Project Intern

Oil and Natural Gas Corporation Limited (ONGC), Karaikal
Feb 2025 – Mar 2025

- Analyse and understand the RTUs and SCADA basics. Also explore the distributed control system implemented on site.
- Also have a little amount of involvement in data management with AI

Projects:

Smart Soil Sense (AIoT – Academic Project)

Final Year Project

- Sensor-based soil monitoring system with web interface. Focus on data collection, analysis, and automation. Demonstrates interdisciplinary engineering exposure
- Analyzed soil parameters and provided AI-driven insights to improve agricultural decision-making

Smart Dining Order Management System (IoT Project)

Mini Project

- ESP8266-based local Wi-Fi web server system, QR-based menu access within hotel premises. Order placement and bill generation with table number. Demonstrates IoT networking and system integration
